

Concentric Needle Electrode

Friendship Disposable Concentric Needle Electrodes are designed for use with standard EMG equipment for stimulation and monitoring of biopotential, EMG and nerve potential signals.

The tip of the needle is ultra-sharp for maximum patient comfort and comes with a specially treated cannula to reduce noise and artifacts during monitoring. The color-coded hub makes it simple to find the right size and it is designed with a firm grip to make repositioning easy. The Concentric Needle Electrode can be used with the Friendship Concentric Needle Cable.

- Individually packaged
- Available in boxes of 25
- Sterile
- Single patient use only
